PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and PostgreSQL. Skilled across the stack — from responsive, component-based UI development to REST API design, authentication, and relational database architecture. Delivered a production-style e-commerce platform both independently and as part of a collaborative development team, covering the full cycle from schema design to deployment. Writes clean, maintainable code following MVC principles and picks up new tools and frameworks quickly.

TECHNICAL SKILLS

Frontend: React.js, Vite, React Router, Next.js, Context API, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Sass, Responsive Design

Backend: Node.js, Express.js, REST API Development, Middleware Design, Async/Await, Error Handling, Axios

Database: PostgreSQL, MySQL, Database Design, SQL, Schema Design

Tools & Practices: Git, GitHub, VS Code, MVC Architecture, Clean Code

Other: JWT Authentication & Authorization, Bcrypt, CORS, Input Validation, Nodemailer, Fuse.js (fuzzy search)

Familiar with (working knowledge): AWS S3, Azure Blob Storage

EXPERIENCE

Full Stack Developer Intern | DiGi School, On-Site

Jul 2025 – Aug 2025

- Built full-stack e-commerce features using React.js, Node.js, Express.js, and MySQL as part of a structured training program.
- Developed RESTful APIs for product, user, and order management.
- Designed relational database schemas and wrote SQL queries for core application data.
- Implemented responsive UI features including product filtering, shopping cart, and order management.
- Participated in code reviews and collaborative development workflows using Git and GitHub.

Full Stack Developer | Freelance, Remote

Sep 2025 – Present

- Take on freelance projects periodically, designing, building, and deploying full-stack web applications independently, from planning through production.
- Build responsive, component-based UIs with React.js (Vite), JavaScript (ES6+), and Tailwind CSS.
- Develop and secure RESTful APIs with Node.js and Express.js, including custom authentication middleware.
- Design PostgreSQL database schemas and write queries to support application data needs.
- Implement JWT authentication with HTTP-only cookies, Bcrypt password hashing, and email verification/password-reset flows via Nodemailer.
- Use Git for version control and maintain clean, documented code throughout development.

Full Stack Developer | Startup Hamova, Hybrid

Dec 2025 – May 2026

- Built the customer-facing React.js (Vite) frontend for a production-style e-commerce platform, using Context API for cart/wishlist/auth state and React Router with protected routes.
- Implemented fuzzy product search with Fuse.js and connected frontend to backend services via Axios.

- Designed and built RESTful backend services in Node.js and Express.js for product, user, and order management, following an MVC architecture.
- Designed normalized PostgreSQL schemas for products, users, orders, and order items; wrote queries for catalog browsing, cart persistence, and order processing.
- Implemented JWT-based authentication with email verification and password recovery, plus input validation and CORS protection on all API endpoints.
- Handled transactional email delivery with Nodemailer and collaborated with a development team on architecture decisions, code review, and debugging.

English Tutor & Corporate Language Instructor | Freelance, Hybrid

Aug 2020 – Jul 2024

- Delivered English instruction to individual and corporate clients in online and in-person settings, designing customized learning plans based on student goals.
- Managed scheduling, lesson preparation, and long-term client relationships, developing communication and client-facing skills relevant to team-based development work.

EDUCATION

Professional Full Stack Development Program | DiGi School

2024 – 2025

- Completed intensive project-based training covering React.js, Node.js, Express.js, and PostgreSQL, building production-style applications.

B.A. in Communicative Linguistics & Translation (English) | Moscow Pedagogical State University (MSPU)

2020 – 2024

LANGUAGES

English (Professional) · Russian (Fluent) · Armenian (Intermediate)
