PROFESSIONAL SUMMARY

Full Stack Developer with experience building responsive, production-ready web applications using React.js, Node.js, Express.js, and PostgreSQL. Skilled in developing scalable REST APIs, implementing secure authentication and authorization, and designing efficient database solutions. Experienced in delivering full-stack applications from architecture and development through deployment while following clean code, performance, and security best practices. Focused on building reliable software and continuously improving technical skills through hands-on project development.

EXPERIENCE

Full Stack Developer | Freelance | Remote | Jul 2025 – Present

- Design, develop, and deploy full-stack web applications from architecture through production deployment
- Build responsive user interfaces using React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS
- Develop RESTful APIs with Node.js and Express.js, implementing secure authentication, authorization, and middleware
- Design and optimize PostgreSQL databases with normalized schemas and efficient queries
- Implement JWT authentication, HTTP-only cookies, Bcrypt password hashing, email verification, and password reset workflows using Nodemailer
- Integrate AWS S3 and Azure Blob Storage for secure file and image management
- Apply Git workflows, clean code principles, debugging, and performance optimization throughout development

Full Stack Developer | Startup Project (Hamova) | Hybrid | Dec 2025 – May 2026

- Collaborated with a development team to build a production-ready e-commerce platform with user authentication and order management
- Developed React.js frontend using Context API, React Router, and protected routes
- Built RESTful backend services with Node.js and Express.js following security and scalability best practices
- Designed PostgreSQL database schemas for products, users, and order processing
- Implemented JWT authentication, email verification, password recovery, input validation, CORS protection, and security middleware
- Integrated AWS S3, Azure Blob Storage, and Nodemailer for image handling and transactional emails
- Participated in architecture discussions, code reviews, debugging, and technical planning

Full Stack Developer | Internship | DiGi School | On-Site | Jul 2025 – Aug 2025

- Developed full-stack e-commerce applications using React.js, Node.js, Express.js, and MySQL
- Built RESTful APIs for product, user, and order management
- Designed relational database schemas and optimized SQL queries for performance
- Implemented responsive UI features including product filtering, shopping cart, and order management
- Participated in code reviews, debugging, and collaborative development using Git and GitHub

English Tutor & Corporate Language Instructor | Freelance | Hybrid | Aug 2020 – Jul 2024

- Delivered English instruction to individual and corporate clients in online and in-person settings
- Designed customized learning plans based on student goals and progress
- Managed scheduling, lesson preparation, and long-term client engagement
- Developed strong communication, presentation, and interpersonal skills in multicultural environments

TECHNICAL SKILLS

Frontend: React.js, React Router, Next.js, Context API, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Sass, Responsive Design

Backend: Node.js, Express.js, REST APIs, Middleware, Authentication, Authorization, Async/Await, Error Handling

Databases: PostgreSQL, MySQL, Database Design, SQL, Query Optimization, Schema Design

Security: JWT, HTTP-only Cookies, Bcrypt, CORS, Input Validation, Email Verification, Password Reset

Cloud & Services: AWS S3, Azure Blob Storage, Nodemailer

Tools & Practices: Git, GitHub, VS Code, MVC Architecture, OOP, Clean Code, Design Patterns, API Development, Debugging

Languages: English (Professional), Russian (Fluent), Armenian (Intermediate)

EDUCATION

Professional Full Stack Development Program | DiGi School | 2024 – 2025

- Completed intensive project-based full-stack development training
- Built production-style applications using React.js, Node.js, Express.js, and PostgreSQL

B.A. in Communicative Linguistics & Translation (English) | Moscow Pedagogical State University (MSPU) | 2020 – 2024

- Developed advanced communication, analytical thinking, and cross-cultural collaboration skills
- Completed coursework in linguistics, translation, and professional communication
